Born For Coffee Roasting

Our Story

Since 1990 , Yoshan is currently the only manufacturer in China who could keep pace with German technology.

Professional R&D team , focusing on quality, born for high quality coffee roasting business .

After 32 years of development, we have become the largest coffee equipment manufacturer in China and it is the only factory who could produce the 100 kg-300 kg coffee roaster .

Nowadays we are also the only one who could manufacture the full automatic coffee roaster which temperature difference is controlled within ± 0.1 during the temperature chasing process.

QC team with more than 10 years of experience, each machine has undergone at least three QC factory inspections, no complaints in the past three years . At present, our products have passed the CE, SGS, RS and other international certification to ensure that every detail is satisfied by customers. The 24-hour after-sales team and CEO hotline will make your purchase worry free.

Nowadays, YOSHAN has become a renowned international brand. Our products have catered to hundreds of thousands of coffee professionals worldwide, offering comprehensive one-stop solutions for coffee-related needs.

Create your coffee dream with YOSHAN !

More than 10000 brands worldwide choose YOSHAN , to be continued

DY-1KG

Drum Material:	304 food grade stainless steel
Roasting Method:	semi-hot blast and half direct fire
Heating Type:	LPG gas, N-Gas/Electric
Voltage:	AC 220~240V 50/60Hz
Electric Type Power:	4190W
Gas Type Power:	190W
Voltage:	AC 110~220V 50/60Hz
Batch Capacity:	0.2~1.5kg/batch
Roast Cycle:	12-15 mins/drum
Cooling time:	1-2 minutes
Gas consumption:	0.13kg/hour
Machine size:	1200*800*1100mm(W*D*H)
N/W:	130kg(including chaff cyclone)
Color:	Black/White/Copper/Red/Customize

EC-500G

Drum Material:	304 food grade stainless steel
Voltage:	AC 220~240V 50/60Hz
Heating Method:	Complete electric
Control System:	touch-screen panel with data logger
Heating Power:	2.4Kw
Total Power:	2.5Kw
Batch Capacity:	200~500g/batch (maximum 600g)
Roast Cycle:	5~20 mins/drum
Cooling time:	1~2 minutes
Machine size:	500*300*580mm(W*D*H)
Cooling Tray:	260*230*230mm(W*D*H)
N/W:	33kg(including chaff cyclone and cooling tray)
Body color:	matt black
LOGO:	OEM

Other Equipment

- Semi-automatic Sealing Machine
- Filling Machine
- High End Destoner
- ESP Smoke Filter
- Afterburner
- Automatic Vacuum Air Loading Feeder
- Customized Loading Feeder For Giesen & Probat
- Table for coffee roaster
- Coffee Peeling Machine
